

Tiny

bugs

might be visiting

my

skin.

This is

why

the

doctor

has given

me

a

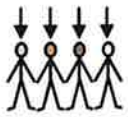

tablet

to

take.

Everyone

in Knockavoe

school

must

take

this

medicine

Taking

my

tablet

is a brave and

important job.

I

will

take

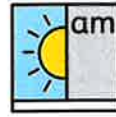

the

tablet

tomorrow

morning.

I

will

take

my

medicine

with a

glass of water

or

juice.

A grown-up

can

help

me

crush

the

tablet

if it's easier to

swallow.

After

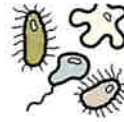

I

take

the tablet, the

bugs

will start

to go.

my

worn

clothes

and

bedding

will be

washed in

hot water.

I

will

take

another

tablet

one

week

later

to ensure

the bugs stay away.

My

family

will

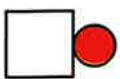

take

the

tablet

too.

By

taking

my

tablet,

I

am

helping

my

body

stay

healthy.

I

will be

safe

and okay
